Dear Ms. Ise:

Thank you very much for the opportunity to review your joint proposal to coordinate and facilitate a long-term strategy to encourage restoration of the lower Mokelumne and Consumnes rivers. The City is very supportive of the proposal and agrees that the program will result in substantial benefits to anadromous fisheries production, aquatic habitats and riparian ecosystem integrity and diversity.

The CALFED Bay-Delta Program's draft strategic plan for ecosystem restoration has identified several opportunities for river restoration. Many of these opportunities are currently being pursued in the lower Mokelumne and Consumnes rivers, including the Army Corps of Engineers evaluation of ecosystem restoration and non-traditional flood damage; the San Joaquin Resource Conservation District's Lower Mokelumne Stewardship Program; The Nature Conservancy's management activities at the Consumnes Preserve; and, the University of California's Center for Integrated Watershed Science and Management research program.

Cooperative actions such as your joint proposal to achieve and maintain these objectives are encouraged. These programs, when fully implemented, will provide substantial progress in restoring the Sacramento-San Joaquin Bay-Delta ecosystems, as well as providing great benefits to the residents of the City of Lodi and San Joaquin and Sacramento counties.

Your program is critical to the success of the ongoing efforts in the Mokelumne and Consumnes rivers and will ensure coordination and integration of the various programs designed to recover the ecosystem and support stable, self-sustaining populations of fish and wildlife species.

I offer the City's full support and cooperation, and encourage other stakeholders in the lower Mokelumne and Consumnes river areas to support your efforts.

Very truly yours,

H. Dixon Flynn

I would like to take this opportunity to support your joint proposal to coordinate and facilitate a long-term strategy to encourage restoration of the lower Mokelumne and Cosumnes rivers. Our District agrees that program will result in substantial ERP benefits.

CALFED Bay-Delta Program's ERP program is creating opportunities that are being pursued in the lower Mokelumne and Cosumnes rivers to make improvements to the ecosystem, including the Army Corps of Engineers evaluation of ecosystem restoration and non-traditional flood damage; the San Joaquin Resource Conservation District's Lower Mokelumne Stewardship Program; The Nature Conservancy's management activities at the Cosumnes Preserve; and, the University of California's Center for Integrated Watershed Science and Management research program. These programs, when fully implemented will provide substantial progress in restoring the Sacramento-San Joaquin Bay-Delta ecosystem, as well as providing great benefits to the residents of Sacramento and San Joaquin counties.

Your program will ensure coordination and integration of the various programs to meet ERP targets.

We fully support your efforts and pledge our cooperation

Dear Julia,

On behalf of The Nature Conservancy, I want to express our support for your to create the Mokelumne and Cosumnes Rivers Coordination Program to support communication, partnership and integration of the on-going and proposed restoration projects in the East Delta Habitat Corridor. We are pleased to be a cooperater in this restoration program, and believe that the activities you propose will be of substantial benefit to all of the entities engaged in activities to restore ecosystem functions in the two river basins.

The discrete ecosystem restoration, flood damage reduction, and farmland protection projects of southern Sacramento and northern San Joaquin County have mutually supportive goals, and the managing agencies are already exploring opportunities for collaboration; but the number of projects and agencies involved does present significant coordination and communication challenges. The Coordination Program will help to further identify opportunities to combine efforts and resources, avoid unnecessary duplication, assure that the findings from one project will inform other projects, and to coordinate contacts with regional landowners and other stakeholders.

Sincerely,

A handwritten signature in cursive script that reads "Mike Eaton".

Dear Julia,

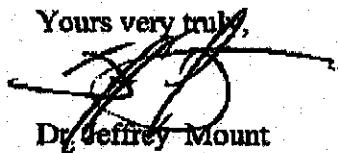

Thank you very much for the opportunity to review your joint proposal to create the Mokelumne and Cosumnes Rivers Coordination Program to support communication, partnership and integration of the on-going and proposed restoration projects in the East Delta Habitat Corridor. The UCD Center for Integrated Watershed Science and Management is pleased to cooperate in this effort, and believes that the program will be of substantial benefit to all of the entities engaged in activities to restore ecosystem function in the two river basins.

The CALFED Bay-Delta Program's draft strategic plan for ecosystem restoration has identified several opportunities for river restoration. Many of these opportunities are currently being pursued in the lower Mokelumne and Cosumnes rivers, including the Army Corps of Engineers evaluation of ecosystem restoration and non-traditional flood damage; the San Joaquin Resource Conservation District's Lower Mokelumne Stewardship Program; The Nature Conservancy's management activities at the Cosumnes Preserve; EBMUD's Lower Mokelumne River Joint Settlement Agreement (FERC Project No. 2916-004), and the University of California's Center for Integrated Watershed Science and Management research and monitoring programs on the Cosumnes and the Mokelumne. In addition, there are a number of proposals coming before CALFED in this Category III round to initiate new projects and expand the scope of work already underway.

These projects have mutually supportive goals, and the managing agencies are already exploring opportunities for collaboration; but the number of projects and agencies involved does present significant coordination and communication challenges, which the proposed Coordination Program is designed to address. The Coordination Program will help to further identify opportunities to combine efforts and resources, avoid unnecessary duplication, assure that the findings from one project will inform other projects, and to coordinate contacts with regional landowners and other stakeholders.

We look forward to working with you.

Dear Ms. Greene,

As the manager for the Natural Resource Projects Inventory (NRPI) at the UC Davis Information Center for the Environment (ICE), I am writing in support of the Mokelumne and Cosumnes Rivers Coordination Program. We at ICE are currently digitizing CalFed projects and incorporating the data into the NRPI. I have met with several partners in the The Mokelumne and Cosumnes Rivers Coordination Program, and I think the proposed facilitation and participant database is a useful and necessary idea. We at ICE look forward to cooperating with you to make sure project descriptions from this area are incorporated into the NRPI to allow CalFed and any other interested group or agency to have web access to current project data.

Your proposal supports both ongoing and newly-formed efforts. Jeff Mount is continuing to catalogue monitoring in the Cosumnes watershed. This will fit in well with your proposal, and indeed, Jeff has voiced his support. As an upcoming forum, the Watershed Working Group of the California Biodiversity Council will begin meeting this month, and as a participant, I will encourage the connection between the Council's efforts and facilitation proposals such as the Mokelumne and Cosumnes Rivers Coordination Program.

Facilitation is a key piece in the watershed puzzle. I find your proposal to be far-sighted and thorough. I hope your efforts will be supported.

Yours in continuing work for the environment,

Dear Ms. Greene,

On behalf of SAFCA, I would like to provide our support to your Mokelumne and Cosumnes Rivers Coordination Program proposal to CALFED. Based on our review of this document, we believe that the coordination, communication, and integration of stakeholders and information in this region benefits SAFCA as we move forward with implementation of flood control improvements for south Sacramento County.

SAFCA is actively involved in the Corps of Engineer's South Sacramento Stream Group Project and is requesting the State Reclamation Board become the project's non-federal sponsor. Additionally, we are supportive of the CALFED efforts on the Lower Cosumnes and Lower Mokelumne Rivers Feasibility Studies with the Corps, The Nature Conservancy, and East Bay Municipal Utilities District. As a participant in flood control efforts in the north delta we understand the need to have all stakeholders affected by flood conveyance, water supply, and ecosystem restoration activities in and near the Cosumnes and Mokelumne watersheds to have a voice in future changes. Your program is vital to achieving this goal. The issues facing the Cosumnes and Mokelumne watersheds must be addressed in concert with the North Delta and South Sacramento County flood control efforts.

In closing, we are pleased to see you taking this proactive step to ensure coordination among ongoing and future projects. We offer our full cooperation and will encourage other affected stakeholders to do the same.

Sincerely,

Dear Mr. Meek:

The Florin Resource Conservation District is looking forward to working with you on the Mokelumne and Cosumnes Rivers Coordination Program. We agree that the program will provide needed support to a wide variety of watershed planning and restoration projects, including our own Cosumnes River Task Force.

There are several projects taking place within the Cosumnes and Mokelumne watersheds that will provide significant benefits to the Sacramento-San Joaquin Bay-Delta Ecosystem as well as the watershed stakeholders. The US Army Corps of Engineers is evaluating opportunities for ecosystem restoration that will lead to more natural flood management; The Nature Conservancy is continuing to expand its efforts at the Cosumnes River Preserve; The University of California's Center for Integrated Watershed Science and Management has developed the Cosumnes Consortium Research and Monitoring program; Furthermore, there are several projects underway to improve conditions for anadromous fish on the Mokelumne. The Cosumnes River Task Force intends to develop a long term strategy that will encourage restoration of watershed health and improve flood management. These efforts must work together to be successful in achieving the common goal of ecosystem restoration.

The Coordination Program will allow the watershed projects to share information, resources, and decisions. This program is vital to the success of the watershed restoration and planning efforts. The Florin RCD offers its full support and cooperation for this very important program.

Dear Chairman Cabral:

This letter is to notify the San Joaquin County Board of Supervisors of our application to CALFED for funding the Mokelumne and Cosumnes Rivers Coordination Program. The San Joaquin Council of Governments, in cooperation with the San Joaquin County, Lower Cosumnes, Florin and Sloughhouse Resource Conservation Districts has requested a grant of \$354,238 over a three-year period to develop and implement the program.

The Mokelumne and Cosumnes Rivers Coordination Program will be created to support communication, partnership, and integration of the numerous ongoing and proposed land, water, and ecological resource projects in the East Delta Habitat Corridor (as defined in the CALFED Revised Draft Strategic Plan for Ecosystem Restoration). The Program will function as a coordinator and information clearinghouse for the previously listed projects as well as any unforeseen projects in the area. It will provide facilities, facilitators, database managers, and coordinators to all projects presently underway including the Woodbridge Irrigation District and City of Lodi Lower Mokelumne River Restoration Project; The Cosumnes River Task Force; the Lower Mokelumne River Joint Settlement Agreement among the U.S. Fish and Wildlife Service, California Department of Fish and Game and East Bay Municipal Utility District; the U.S. Army Corps of Engineers feasibility studies on the lower Mokelumne and Cosumnes Rivers; the San Joaquin County RCD's Lower Mokelumne River Stewardship Program; the Cosumnes Consortium Research and Monitoring Program; and the San Joaquin County Habitat Conservation Plan, as well as any future projects. The coordination program will manage a stakeholder database, distribute technical and non-technical information, provide calendars of events (including environmental compliance activities) to all stakeholders, issue newsletters, manage a program webpage, report to CALFED and other appropriate entities of watershed-related activities.

Although this requires no Board action, we hope that the Board will support the program, the sole purpose of which is to ensure that coordination is established and maintained for the numerous ongoing projects in the East Delta and that subsequent system-wide ecosystem benefits are realized. General Instructions

This form is designed so that application can be made for funds from one or more grant programs. In preparing the budget, adhere to any existing Federal grantor agency guidelines which prescribe how and whether budgeted amounts should be separately shown for different functions or activities within the program. For some programs, grantor agencies may require budgets to be separately shown by function or activity. For other programs, grantor agencies may require a breakdown by function or activity. Sections A, B, C, and D should include budget estimates for the whole project except when applying for assistance which requires Federal authorization in annual or other funding period increments. In the latter case, Sections A, B, C, and D should provide the budget for the first budget period (usually a year) and Section E should present the need for Federal assistance in the subsequent budget periods. All applications should contain a breakdown by the object class categories shown in Lines a-k of Section B.

Section A. Budget Summary Lines 1-4 Columns (a) and (b)

For applications pertaining to a *single* Federal grant program (Federal Domestic Assistance Catalog number) and *not* requiring a functional or activity breakdown, enter on Line 1 under Column (a) the catalog program title and the catalog number in Column (b).

For applications pertaining to a *single* program requiring budget amounts by multiple functions or activities, enter the name of each activity or function on each line in Column (a), and enter the catalog number in Column (b). For applications pertaining to multiple programs where none of the programs require a breakdown by function or activity, enter the catalog program title on each line in Column (a) and the respective catalog number on each line in Column (b).

For applications pertaining to a *multiple* programs where one or more programs *require* a breakdown by function or activity, prepare a separate sheet for each program requiring the breakdown. Additional sheets should be used when one form does not provide adequate space for all breakdown of data required. However, when more than one sheet is used, the first page should provide the summary totals by programs.

Lines 1-4, Columns (c) through (g)

For new applications, leave Columns (c) and (d) blank. For each line entry in Columns (a) and (b), enter in Columns (e), (f), and (g) the appropriate amounts of funds needed to support the project for the first funding period (usually a year).

For continuing grant program applications, submit these forms before the end of each funding period as required by the grantor agency. Enter in Columns (c) and (d) the estimated amounts of funds which will remain unobligated at the end of the grant funding period only if the Federal grantor agency instructions provide for this. Otherwise, leave these columns blank. Enter in Columns (e) and (f) the amounts of funds needed for the upcoming period. The amount(s) in Column (g) should be the sum of amounts in Columns (e) and (f).

For supplemental grants and changes to existing grants, do not use Columns (c) and (d). Enter in Column (e) the amount of the increase or decrease of Federal funds and enter in Column (f) the amount of the increase or decrease of non-Federal funds. In Column (g) enter the new total budgeted amount (Federal and non-Federal) which includes the total previous authorized budgeted amounts plus or minus, as appropriate, the amounts shown in Columns (e) and (f). The amount(s) in Column (g) should not equal the sum of amounts in Columns (e) and (f).

Line 5--Show the totals for all columns used.

Section B. Budget Categories

In the column headings (1) through (4), enter the titles of the same programs, functions, and activities shown on Lines 1-4, Column (a), Section A. When additional sheets are prepared for Section A, provide similar column headings on each sheet. For each program, function or activity, fill in the total requirements for funds (both Federal and non-Federal) by object class categories.

Lines 6a-i--Show the totals of Lines 6a and 6h in each column.

Line 6j--Show the amount of indirect cost.

Line 6k--Enter the total of amounts on Lines 6i and 6j. For all applications for new grants and continuation grants the total amount in column (5), Line 6k, should be the same as the total amount shown in Section A, Column (g), Line 5. For supplemental grants and changes to grants, the total amount of the increase or decrease as shown in Columns (1)-(4), Line 6k should be the same as the sum of the amounts in Section A, Columns (e) and (f) on Line 5.

Line 7--Enter the estimated amount of income, if any, expected to be generated from this project. Do not add or subtract this amount from the total project amount. Show under the program.
